

Finding Aid for F 978

Church records collection

How to view records:

Use the table below to identify the records you are interested in. If the Microfilm # column shows a microfilm number, retrieve the microfilm from the self-serve cabinets in the Archives of Ontario's Main Reading Room. If the entry shows a box number only (in the Box # column), order the box quoting F 978, the box number and the title of the material.

Some of the "MS" microfilm is available through the Archives of Ontario's Microfilm Interloan Service, which allows you to borrow microfilmed archival records through a library or other institution that participates in the interlibrary loan system. Consult the Archives of Ontario Web site for more information about this service and available reels.

Microfilm with the prefix "C" or "M" is Library and Archives Canada (formerly National Archives of Canada) Diffusion microfilm, and is not properly part of the Archives of Ontario Church Records Collection (F 978). The reels are included in this list for the researcher's convenience. If you are citing this material, please cite the "C" or "M" number and Library and Archives Canada, not the Archives of Ontario reference code F 978.
